ABOUT ME

Motivated undergraduate student with a strong foundation in Python and a passion for Machine Learning and Data Science. Eager to apply analytical and problem solving skills to develop innovative solutions for real world challenges. A quick learner dedicated to continuous professional growth and making a tangible impact in the tech industry. My academic journey is complemented by leadership roles in sports , which have strengthened my communication, teamwork, and project management skills. I'm continuously exploring new tools and frameworks to stay ahead in the fast-evolving tech landscape and am eager to contribute to innovative projects that deliver real-world impact.

PROJECTS

2025-2026

Pose Suggesting App Using Deep Learning (Top 10 Award)

- Designed and implemented an on-device AI pose estimation model to provide real-time photography guidance for users.
- Researched and trained deep learning algorithms to accurately detect body keypoints with low latency on mobile hardware.
- Collaborated with a development team to integrate the model into the mobile application architecture.
- GitHub| <https://github.com/supunjayamal/Posea-Pose-Suggestion-App>

SKILLS

- AI & Deep Learning:** TensorFlow 2.x, Keras (Functional & Sequential APIs), Computer Vision, Convolutional Neural Networks (CNN), Multi-label Classification, Feature Extraction.
- Mathematical & Data Analytics:** Vector Space Modeling, Cosine Similarity Analytics, Statistical Data Analysis, NumPy, Pandas, Scikit-Learn (Confusion Matrix, Classification Metrics).
- Mobile Development & Edge AI:** Flutter, TensorFlow Lite (TFLite), Model Conversion, On-Device Inference Optimization.
- Development Tools & Environment:** Google Colab, Git/GitHub, Python 3.x, Android Studio , VS Code, Jupyter Notebooks.

EDUCATION

2023-2026

BSc. Information Technology
Rajarata University Of Sri Lanka

2020

GCE Advance Level
Wayamba Royal College
Commerce Stream: ABC

LEADERSHIP EXPERIENCE

Captain

2025-2026
University Cricket Team
Rajarata University

Captain
